

## Membership Requirements.

Membership requirements are simple. Besides being a living, breathing human being, one need only share an interest in the sport of radio controlled surface sailing, either of the landsailing or iceboat type. There are no dues or registration fees. Once one joins they are a member for life. Their issued sail number, which is also their membership number, is permanent. As a sail number it should be displayed on all RC vessels owned by the member. As a member number it will never be reissued to anyone else even in death.

The only thing that can cause a disruption in the use of a member/sail number is if one moves to another country and wishes to sail as a member of the new country. In this case, the old membership would be designated as "Inactive" and the member would simply rejoin as a resident of the new country.

To join one need only to apply for membership using an application form found elsewhere on this website, or included in the packaging of many of the vendors included on this website. As soon as the application is received a sail number will be issued to the new member. The number will be chosen consecutively in the order in which applications are received. Sail number letters are assigned according to the resident country in which the applicant resides.
